The screenshot shows the phpMyAdmin web interface in a browser. The address bar indicates the URL is localhost/phpmyadmin/index.php?route=sql&db=pbo&table=djual&pos=0. The interface is in Indonesian. On the left is a sidebar with a database tree showing 'pbo' as the selected database, with tables 'djual', 'jual', 'konsumen', 'user', 'perjualan', 'performance_schema', 'phpmyadmin', 'test', and 'tugas_2'. The main area shows the 'djual' table structure and data. The table has columns: no_jual, kd_brg, harga_jual, jml_jual, and diskon. The data rows are: (2, 0001, 10000, 5, NULL), (2, 0001, 10000, 5, NULL), (6, 0004, 350000, 2, 5), and (7, 0002, 2000, 5, 3). The interface includes a top navigation bar with options like 'Browse', 'Structure', 'SQL', 'Search', 'Insert', 'Export', 'Import', 'Privileges', 'Operations', 'Tracking', and 'Triggers'. A message at the top states: 'Current selection does not contain a unique column. Grid edit, checkbox, Edit, Copy and Delete features are not available.' Below this, it says 'Showing rows 0 - 3 (4 total, Query took 0.0004 seconds.)'. The SQL query shown is 'SELECT * FROM `djual`'. There are checkboxes for 'Profiling', 'Show all', and 'Number of rows: 25'. A 'Filter rows' input field is also present. The 'Extra options' section is visible. The 'Query results operations' section includes 'Print', 'Copy to clipboard', 'Export', 'Display chart', and 'Create view'. The 'Bookmark this SQL query' section has a 'Label' input field and a checkbox 'Let every user access this bookmark'. The bottom status bar shows the system clock as 10:49 on 04/07/2023.
